Rob –

I have completed the review of LanEast, Rugged and TDS. TDS, Rugged and LanEast have one minor revision to the NADB information sheet. Please request the consultant to accept changes and we are good to go. Revised studies are located at:

S:\temp\Ashley Gungle\SOITEC SOLAR DEVELOPMENT\12092013-FinalSCDraftPEIR\Appendices\Cultural\Revised Studies

I still need to review the most current version of LanWest and the confidential appendix for LanEast.

Thanks,

Donna Beddow
